

# THE ROSWELL DAILY RECORD.

VOLUME 4

ROSWELL, NEW MEXICO, TUESDAY EVENING, MARCH 27, 1906.

NUMBER 22

## OUR GREAT CARPET SALE IS NOW ON--PRICE & COMPANY

### BAD FOR ANDREWS

HIS NAME MENTIONED IN WARRANTS AT PITTSBURG.

### CHECK FOR ANDREWS

One in His Favor Cashied by Clark.—District Attorney Will Not Say Whether Information Will Be Made Against Andrews.—Torrance Not In It.

Special to The Record.

Pittsburg, Pa., Mar. 27.—According to information given out at the office of United States District Attorney Dunkle, Nichols, private secretary of "Bull" Andrews, the New Mexico congressional delegate, got into the mire of the Enterprise bank affair through being associated with Andrews. The name of Andrews appears frequently in the twenty-two informations embraced in the warrants issued against Nichols. Nichols is charged specifically in one of these informations with having made out a check in favor of Andrews and putting it in a Pittsburg bank. The check was drawn on the Enterprise bank, and when presented was honored and cashed by T. Lee Clark, the cashier who so promptly committed suicide when he found that he was at last cornered.

Nichols, it is charged, often drew checks on the Enterprise bank in favor of himself, when he had no money deposited there, and they were always cashed by Clark regardless of the amount. In one case Denzemer, one of the clerks against whom informations are made, credited Nichols with the deposit of a certain sum, when nothing at all was deposited and when Nichols had no account in the bank. Attorney Dunkle says it has not yet been determined whether informations will be made against Andrews, but asserts emphatically that nothing was found of a criminal character against Francis B. Torrance, whose name was coupled with that of Andrews at the time the bank collapsed. AUSTIN BEACH, City Editor Pittsburg Gazette.

### TALLMADGE INSPECTS RAILWAY.

Is Trying to Buy the Santa Fe Central and Will Extend Same.

Santa Fe New Mexican, Mar. 27.—"It is true that I am here representing the Tallmadge and other interests, looking over the Santa Fe Central Railway with a view to purchasing the line if negotiations now under way are brought to a successful conclusion. In that event we will bring 100,000 new settlers to the eastern part of New Mexico in the next year."

This statement was made this morning by C. L. Tallmadge, of Chicago, who was a guest at the Palace Hotel having arrived here yesterday afternoon from Roswell via the automobile route to Torrance and thence to this city over the railway he contemplates buying.

Mr. Tallmadge visited the local offices of the Santa Fe Central Railway Company and talked with business men and others interested in the development of this part of New Mexico. This afternoon, he left via the Santa Fe Central Railway for the Estancia Valley which he will inspect thoroughly. As a proof of Mr. Tallmadge's belief in the future of the "Sunshine Territory," he said that he had established permanent headquarters at Roswell and expected to remain in the Southwest.

"I like to live in New Mexico," he said, "it's the finest climate on earth." Road Will Be Completed to Roswell.

Continuing, with reference to the Santa Fe Central, he said:

"We want this line, and let me say right here, that whether or not we secure it, the line is going to be finished just as soon as possible to Albuquerque, the coal fields and thence to Roswell, as sure as the sun rises and sets. It's a straight business proposition and some one will take it up. I know that to be a fact. If we are

successful in getting the purchase of the line, we will begin construction work at once. We Tallmadges, and the interests we represent have been interested in immigration work in other parts of the country, particularly the Panhandle of Texas. We have had considerable experience in such undertakings and I feel sure that if we take hold of this line, we will settle up New Mexico in short order. We want the line for that purpose as well as a business proposition afterwards. Of course, I have confined myself to looking over conditions in the south part of this Territory in the past and that is one reason why I am in the Capital City today. I wish to learn more of the topography of this section. I have only seen a portion of the Estancia Valley, but I am greatly pleased with it. I consider it one of the best farming districts in the southwest if properly developed. When I return from my visit there to day I will be able to talk to more advantage about it. However, from what I hear, the only thing it lacks is artesian water. I think this deficiency can be overcome by artificial means, in fact I am sure it can. At any rate that is what I want to learn on this trip if I can. I am informed the water supply is unlimited. Certainly if such is the case, the Valley can be made very productive.

To Settle Estancia Valley. "If our interests take hold of the Santa Fe Central, the Estancia Valley will be filled from one end to the other inside of a year with a good class of hard working, industrious farmers. From what I have seen of this part of New Mexico, I am greatly pleased with it and think it will show great development in the near future. I have read the Daily New Mexican, and I am pleased with the work it is doing for the settling up and progress of New Mexico."

Mr. Tallmadge said he would not talk with regard to the price offered for the Santa Fe Central. He said he did not know how the report originated in Pittsburg that he was connected with the Goulds in an attempt to buy the road. Neither would he name those who were with him in the deal.

"I understand," he said, "that there are several bidders for the line. We are only one. Which one will be successful in the long run I am not able to say. However, there is no doubt but that the road will either change hands or else sufficient capital will be put into its treasury to complete the tracks, thus making it a good proposition."

"I suppose you are interested in statehood of some kind?" was asked Mr. Tallmadge.

"Yes, I am," he said, "although I pay mighty little attention to politics. I think we have enough land here to make a great big prosperous state without the addition of any more territory, don't you?"

New Ambassador Approved. Vienna, Mar. 27.—The foreign office today informed the Associated Press that Emperor Francis Joseph today approved the appointment of Charles Francis to be ambassador of the United States to Austria-Hungary.

The Revival. A growing interest was manifested at the Christian church last night. There were two additions by confession. On account of the change of time on the P. V. Evangelist Lockhart missed the train this morning at Amarillo. He writes us that he will be here tomorrow. Elder E. H. Holmes of Artesia will preach tonight. Don't fail to hear him.

C. C. HILL, Minister. F. H. Duffy, of Litchfield, Ill., left this morning for St. Louis, after spending three weeks here with his wife and the family of D. G. Hall. He is greatly pleased with the country and will come back to make his home.

### NOTICE!

The Woman's Club will hold their regular meeting on Wednesday afternoon at 2:30 at the CARNEGIE LIBRARY. Mrs. Parker Earle will have charge of the program. Every member is earnestly requested to be present, as there is important business to be transacted.

### U. S. WEATHER BUREAU.

(Local Report.) (Observation taken at 6 a. m.) Roswell, N. M., Mar. 27.—Temperature.—Max., 75; min., 43; mean, 59. Precipitation, a trace; wind N., velocity 3 miles; partly cloudy. Forecast, Roswell and vicinity: Rain tonight and probably Wednesday; stationary temperature. M. WRIGHT, Official in Charge.

### TO ARREST CORTELYOU

REPORTED THAT HE MAY BE ARRESTED ON NEW YORK WARRANT.

### LIFE INSURANCE CASE

Warrants Issued in New York for Three Prominent Persons.—District Attorney Jerome Declines to Say Whom.

Washington, D. C., Mar. 27.—Postmaster General Cortelyou was informed of a report from New York that it was believed a warrant had been issued for his arrest, while attending a meeting of the cabinet. At the conclusion of the meeting he declined to discuss the question, but says that if it be true that a warrant has been issued he will go to New York at once. He concluded by saying "Just wait for facts."

New York, Mar. 27.—Warrants for the arrest of three prominent life insurance officials were obtained by District Attorney Jerome today from Magistrate Moss of the Tombs court. It is said that at the time the warrants were issued the men named in them were in the criminal court buildings, and their attorneys were at the same time in the supreme court arranging for writs of habeas corpus in connection with the proceedings.

After the warrants were issued District Attorney Jerome declined to say for whom they had been issued. His action in asking for the warrants is believed to be the outgrowth of a sharp discussion between Judge O'Sullivan of the court of general sessions and himself last week over the question whether the officers of insurance companies could be prosecuted for larceny for making contributions to political parties. A few weeks ago Mr. Jerome presented to the grand jury certain evidence bearing on such contributions which was brought out in the legislative insurance investigation. Following this the grand jury presented to Judge O'Sullivan a long series of hypothetical questions as to whether under certain circumstances the insurance officials committed larceny in making political contributions. Several days ago Mr. Jerome informed the jury that the officers were not guilty of larceny unless an intent of fraud was shown, and expressed the opinion that such intent was not shown in these cases. Last week, however, Judge O'Sullivan notified the jury to say whether or not an intent of fraud was shown by the insurance men, and if the jury found it shown the crime of larceny would have been committed.

New York, Mar. 27.—Up to 2:30 o'clock this afternoon no official statement as to the insurance warrants could be obtained, but at that time it was reported that a decision had been reached to make a test case against George Perkins.

### WIRELESS EXPERIMENTS.

About Seventy-five Per Cent of Messages Entirely Successful.

Washington, D. C., Mar. 27.—Under the direction of Rear Admiral Cowles, chief of the Bureau of Equipment for the Navy Department, careful experiments were made recently for ten days in sending government wireless dispatches between stations at Guantanamo, Cuba, Key West and Pensacola, Florida, and Colon, Panama. It was found that about seventy-five per cent of the messages were entirely successful and the ratio of success was much higher with night messages than with those sent in day time. This record is better than had ever been made by the navy department in former tests.

### SERIOUS RIOTING.

Two Men Killed and Over Three Hundred Wounded.

Vienna, Mar. 27.—Serious street rioting occurred at Bucharest last night and culminated in a conflict between the rioters and troops during which two men were killed and over three hundred wounded. The trouble arose over a demonstration of Roumanian Nationalists against the use of the French language in a performance at the National theatre. The ladies of a charity society which is under the patronage of the Princess Marie, advertised the production of a play in French, and thousands of Nationalists gathered about the theatre and became so

threatening that troops were summoned and fired twice before the demonstrators dispersed. Over one hundred persons were arrested.

### TILING DOESN'T LEAK A DROP.

Two of the Big Pipes Cemented Together Hold Water Like a Reservoir. A Record reporter went to the factory of the Hondo Stone Mfg. Co. this morning and was shown by the manager, A. L. W. Nilsson, two of the big 36-inch tiling that are being made to tile the ditches that run through town. The two pieces had been set on end, one over the other, and the crack between them was cemented, as was also the bottom tiling to the floor. Thus was formed a reservoir or tank several feet high. It was filled with water, and was absolutely leak-proof. The cement between was but one day old, but was doing the work nicely. This shows how well the irrigation ditches can be tiled when the work is commenced next fall. Three of these tiling, set on each other end to end and cemented, would make a splendid tank or reservoir.

### WHEELER MEMORIAL.

Honor to the Gallant Soldier Who Fought With Men of Two Generations.

Atlanta, Ga., Mar. 27.—The Wheeler memorial exercises in Atlanta today were most impressive, though rain interfered with the parade which had to be abandoned. It was intended that a regiment of United States troops, followed by the Fifth Georgia infantry, each headed by its band, and those preceded and followed by numerous organizations, Confederate and Union veterans alternating were to escort the daughters and family of General Wheeler to the Grand opera house, where eloquent tributes were paid to the memory of the dead soldier.

For a mile and more through the business section of the city the streets were garlanded with the National colors from every place of vantage, and lined with throngs of citizens and visitors.

The parade was under the direction of Col. John T. Van Arsdale, of the 17th Infantry, U. S. A., and Colonel Clifford L. Anderson, of the Fifth Georgia Infantry, as marshals. It was more than an hour after one before the audience which filled the theatre almost to suffocation, heard the first address of Col. T. H. Jones, chairman of the committee on arrangements, as he introduced Governor Joseph M. Terrell, who made the address of welcome and introduced the various speakers following him. These were Former Congressman J. H. Maddox, representing Wheeler's Confederate cavalry; General Clement A. Evans, representing the United Confederate Veterans in place of General Stephen D. Lee commander in chief, who was detained by ill health; Corporal James Tanner, commander in chief of the G. A. R.; Major Charles R. Miller, representing the Spanish war veterans.

Appropriate music alternated with the addresses. Closing the program the bugle sounded "Taps" and "Reveille," and the solemn exercises closed with the benediction.

### STANDARD OIL CASE.

A Number of Letters Placed in Evidence by Attorney General.

New York, Mar. 27.—When the proceedings of the case in which Attorney General Hadley of Missouri seeks to oust from the state the companies controlled by the Standard Oil Company, were resumed today, counsel for the Standard Oil Company delivered a number of letters which had been requested by Mr. Hadley. Many of these requested were missing. Hadley could use the copies he had, as the originals could not be found.

H. M. Tilford, of New York, was the first witness today. He said that he was president of the Continental Oil Company which does business in Colorado and the West, and was also connected with a second company engaged in the oil business in the Pacific states, a corporation incorporated in Iowa. Upon being asked if he was a member of the Domestic Trade committee of the Standard Oil Company, Mr. Tilford said he did not know what was meant by the term "committee." He had heard it used, however, he said.

### Trains Met Here Today.

The new time table on the P. V. & N. E. railroad went into effect today. The train from the south arrived exactly on time, at 9:45, local, and the train from the north arrived at 10:05, local, twenty minutes late.

E. H. Holmes, pastor of the Christian church at Artesia, accompanied by L. C. Robinson, came up today to attend the Christian church revival. Mr. Holmes will preach tonight.

Will Miser returned yesterday from a trip to Torrance on the auto stage.

### LOOKS LIKE COAL STRIKE

MINERS AND OPERATORS UNABLE TO REACH AGREEMENT.

### ADVANCE OF 5 PER CENT

Unless This is Granted the National Officers of the Miners' Union Will Not Consent to Sign a Scale With the Operators.

Indianapolis, Ind., Mar. 27.—The joint scale committee of the bituminous coal operators and miners of the central competitive district, after being in session one week, decided today to report a disagreement to the session of the joint conference of miners and operators to be held at two o'clock this afternoon. The committee was in session but a short time today. It met at 9:30 o'clock, and after a half hour spent in general talk that bore no relation to the questions at issue, a motion was made and unanimously adopted that a disagreement be reported.

The national officers of the miners in committee yesterday afternoon strongly reiterated their former declaration that under no circumstances would they sign the scale at anything less than an advance of wages of 5.55 per cent, and President Perry of the Illinois Miners, assured the operators that no Illinois union or district would be allowed to sign unless the advance was given every union mine in the state.

This ultimatum was received by the operators in silence, and an adjournment was at once taken until this morning, when the motion to report a disagreement was at once offered by President Mitchell of the Miners Association and carried unanimously.

### ARCHBISHOP IN ROME.

Visits the American College and is Warmly Received.

Rome, Mar. 27.—Archbishop Ireland arrived here today from Paris and went to a hotel. Later he visited the American College, where he was most cordially received by the Rector, Mr. Kennedy. The Archbishop then visited the College propaganda, where he was warmly greeted by the Prefect Cardinal Gotti, and asked to be received in private audience by the Pope.

### LOSS OVER A MILLION.

Steamer, Piers, Shops and Materials Destroyed by Fire.

Newport, R. I., Mar. 27.—The Fall River Line's big side-wheel steamer Plymouth was burned to the water's edge, the freight steamer City of Lowell damaged, the long shed, hoisting apparatus, paint shop and old railroad station destroyed and the paint scorched off three other steamers, the Puritan, Priscilla and Nanganuck, early this morning. At one time the blaze threatened to wipe out the entire repairing plant of the line.

The loss is estimated at more than a million dollars. No lives were lost, but thirteen care-takers, watchmen and firemen on board the Plymouth were nearly hemmed in, so rapid was the rush of flames through the ves-

sel. The five steamers were all undergoing the regular spring overhauling preparatory to the summer season, and the burned pier shed contained a considerable quantity of material for the work. The company's plant here covered several acres and included a long wharf which was used as a landing place for boats from New York, two large docks with piers and nearly a score of machine shops and smaller buildings.

Theatre Burned. Meriden, Conn., Mar. 27.—The Meriden Theatre, the largest play house in the city, burned this morning. The loss is expected to reach \$200,000.

Harmony Prevails. A meeting of the Democratic City Central Committee, candidates and voters was held at the court house last night to discuss matters relating to the city campaign. A collection was taken to raise money for printing tickets. Speeches were made by Judge Gatewood, Lucius Dills, Judge Bateman, Dr. Bradley and others.

The situation in the Fourth ward was thoroughly canvassed, and on motion of J. T. Carlton the assembly voted unanimously to do all they could in the interest of R. D. Bell as the Democratic nominee for alderman from the Fourth.

Referring to the dissatisfaction that had arisen in this ward, Lucius Dills, of the Third, remarked that the "people who are doing all the kicking were not at the primary." He referred also to the fact that in the Third he was in the crowd that was run over by the Bateman ice wagon, and pointed out that he and Mr. Scott were present supporting the ticket. He said that Mr. Hinkle was prevented from attending only by being quarantined at home on account of scarlet fever in his family.

Judge Gatewood's speech was a rousing review of Democratic principles, with a strong endorsement of the past two years' record of progress under Democratic administration and an able plea for all Democrats to forget their differences and line up for another two years of progress. As usual, there had been two elements contending in the party. One had got the platform, and the other secured a few of the nominees. Both elements should be satisfied. The present administration had found the city in the mud, said Mr. Gatewood, and it was unnecessary for him to describe the improvements visible on all sides even to the stranger. There was not a man connected with the administration not entitled to the encomiums of the party. He wanted to see the Democratic party carry forward the present policy, to stand by the record of progress, and support the ticket.

### Two Autos Out Today.

Two automobiles left Roswell for Torrance at one o'clock this afternoon, seven passengers, loading up the loads, in addition to the drivers. There were four other passengers who could not go on account of a lack of machines.

J. C. Carroll, agent for the Mesquero Indians, left today on the auto for the Mesquero reservation after a short visit to his son, who is a cadet in the Military Institute.

Capt. John W. Poe, L. K. McGaffey and J. P. Church, made an auto trip yesterday to Dexter, Hagerman and Artesia to inspect the telephone lines, in which they are interested.

Tom Pridemore yesterday made the bond of \$4,000 required in the case in which he is charged with embezzlement.

Bert Ingersoll returned Sunday from a sea voyage to Carlsbad.

Mrs. A. D. Martin, of Dayton, who has been here visiting the family of Carson Hon, left this morning for Portales.

Mr. and Mrs. F. L. Torrance left this morning for their home in Hagerman after spending two days with S. B. Turberville.

D. R. Britt left this morning on a business trip to Vernon, Texas. He will return in time for the election.

2 More Cars of New Furniture due to arrive Tuesday or Wednesday of this Week. Many new things for SPRING TRADE

One Car Consists of Old Hickory Lawn Furniture
